Summary

Cloud infrastructure engineer with 7 years of experience designing and operating large-scale Azure environments for financial services clients. Azure Solutions Architect Expert certified.

Experience

Azure Solution Architect - Meridian Financial Group - 2021-2026
Led design of a multi-region Azure landing zone serving 40+ internal applications. Owned Terraform modules for all infrastructure provisioning, built CI/CD pipelines in Azure DevOps, and introduced Kubernetes-based deployment for the platform team's microservices. Mentored 4 junior engineers.

Cloud Infrastructure Engineer - Nexora Systems - 2018-2021
Operated production Kubernetes clusters on AKS, built Python automation tooling for incident response, and implemented Prometheus/Grafana observability stack across all environments.

Junior DevOps Engineer - Skylark Software - 2017-2018
Supported CI/CD pipeline maintenance and wrote deployment automation scripts in Python.

Education

Bachelor of Science in Computer Engineering - Ecole Mohammadia d'Ingenieurs - 2017

Certifications

Azure Solutions Architect Expert (2022), Certified Kubernetes Administrator (2020)

Skills

Azure, Terraform, Kubernetes, Python, Azure DevOps, GitHub Actions, Prometheus, Grafana, Bicep, FinOps
